Mr. Cliff Chamberlain, Executive Director, (L), Lubbock, Texas, and Mr. John Kendrick, President of Water, Incorporated, (R) Lubbock, Texas, looking over the plans for importing water from the Mississippi River to the High Plains of West Texas and New Mexico. Water, Incorporated was organized in 1967 by the citizens of the area who are concerned about rapidly declining water supply in the area.

WATER INC.
"The People Project"
SUGGESTED WATER IMPORT ROUTES

WATER, INC. USE AREA IMPORT ROUTES STATE LINES

Water, Incorporated is promoting the study of seven possible import routes to bring water to the High Plains.
