The Water Future of Albuquerque and Middle Rio Grande Basin

Proceedings of the 39th Annual New Mexico Water Conference

**November 3-4, 1994
Albuquerque, New Mexico**

Sponsored by:

**New Mexico Water Resources Research Institute
Tom Bahr, Director
Bobby Creel, Assistant Director
Catherine T. Ortega Klett, Conference Coordinator, Proceedings Editor
Cynthia Griswold Rex, Conference/Proceedings Editorial Assistant**

**American Water Resources Association, New Mexico Section
Gwen Easterday, President
Terri Hennessy, President-Elect**

Funds for the proceedings publication were provided by registration fees, the U.S. Department of the Interior, and state appropriations to the New Mexico Water Resources Research Institute. Contents of this publication do not necessarily reflect the views and policies of the New Mexico Water Resources Research Institute, nor does mention of trade names or commercial products constitute their endorsement or recommendation for use.

TABLE OF CONTENTS

THURSDAY MORNING PLENARY SESSION

Water Conference Opening Remarks Dan Gutierrez	1
Water: A Matter of Life and Future Senator Pete Domenici	3
History of Water Development in the Middle Valley Gary Daves	9
An Underground View of the Albuquerque Basin John W. Hawley, C. Stephen Haase and Richard P. Lozinsky	37
A New View for the City of Albuquerque Norman Gaume	57
Albuquerque's Water—Gripping Reality P.R. (Bob) Grant, Jr.	59
Albuquerque's Water Supply: A Pessimist's Armchair View W.K. (Kelly) Summers	61
Changing Face of Water Resources Assessment and Management Bill Turner	65
Balancing the Choices: Albuquerque's Water Future and Its Implementation John C. Tysseling	69
LUNCHEON ADDRESS	
New Mexico's Administration of Water: Past, Present and Future Eluid Martinez	77
THURSDAY AFTERNOON CONCURRENT SESSIONS (in alphabetical order by speaker)	
Surface Water and Groundwater for Growth in the Albuquerque Basin W.P. Balleau	83
Federal Initiatives on the Rio Grande Russell Bowen	97
Flooding and Conservation in the Albuquerque Bosque Clifford S. Crawford, Manuel C. Molles, Jr. and H. Maurice Valett	101
Rio Grande Sediment Study—Supply and Transport Elvidio Diniz, Darrell Eidson and Mathew Bourgeois	107
Practical Realities of Conjunctive Management: The Middle Rio Grande as an Example Charles DuMars	119

Water Quality Standards in a Federal System Denise D. Fort	123
Wastewater Reclamation and Recharge: A Water Management Strategy for Albuquerque Paul J. Gorder, Robert J. Brunswick and Stephen W. Bockemeier	129
Flash Floods: Twelve Observations for Urban Water Resource Management Richard J. Heggen	155
Industrial Water Management: The Intel Example Donald L. Hutchinson	161
Albuquerque Basin Groundwater Model Mike Kernodle	167
Where Has All the Water Gone? T.E. Kelly	169
Summary of U.S. Geological Survey and City of Albuquerque Hydrologic Investigations Program Douglas McAda	179
Water Quality: Perspectives from Two States Jim Piatt and Blane M. Sanchez	183
Using a Watershed-Based Approach to Manage and Protect Water Resources in the Bear Canyon Watershed, Albuquerque, New Mexico Frank J. Roth	189
Transmissivity of the Albuquerque Aquifer: Estimates by Advanced Logging Techniques John W. Shomaker and Hughbert A. Collier	199
Managing Surface Flows in Colorado: An Upstream Viewpoint Steven E. Vandiver	209
STUDENT PAPER PRESENTATIONS	
Water Management Policy for the Albuquerque Basin: What Can We Learn from Tucson? Michael McGuckin	213
A Three-Dimensional Conceptual Model of the Water Quality Distribution in the Albuquerque Basin Dennis Romero	219
Groundwater Recharge and Nutrient Transport in a Tile Drained Field: The Las Nutrias Groundwater Project, Las Nutrias, New Mexico Tracy L. Roth and Robert S. Bowman	229
Examining the Impacts of Faults on Aquifer Flow Systems: Implications for Regional Groundwater Flow Modeling John M. Sigda	237

FRIDAY MORNING CONCURRENT SESSIONS (in alphabetical order by speaker)

Effective Water Resource Planning for the Las Cruces/El Paso/Juarez Area
Edmund G. Archuleta 245

Arsenic Removal Treatment Technologies for Drinking Water Supplies
Michael J. Bitner and Joseph D. Chwirka 251

A Regional Perspective on Arsenic in Waters of the Middle Rio Grande Basin, New Mexico
Charles E. Chapin and Nelia W. Dunbar 257

Water Resource Information Management
Phil Cummings and Zakaria Ben-Salem 277

Zero Discharge: A Dual Solution to Wastewater Disposal and Water Supply Problems
Fred K. Duren, Jr. and Charles Leder 285

How Rural Communities Comply with the Safe Drinking Water Act
Hal E. Engle 293

Arsenic in the Middle Rio Grande: Occurrence and Regulatory Standards
Kevin G. Flanigan 295

The Endangered Species Act
Jennifer Fowler-Propst 307

Source Water Protection Through Vulnerability Assessments
Robert M. Gallegos 313

Albuquerque's NPDES Wastewater Discharge Permit 1994
Robert Hogrefe 317

The Bosque and the Rio Grande
Laurence Lattman 321

Reallocation of Middle Rio Grande Conservancy District Water: A Legal-Institutional Analysis
Maria Lurie, Tim De Young and Gregory C. Ridgley 325

Estimating Residential Water Demand in Urban Areas of New Mexico
Tom McGuckin and J. Phillip King 331

Radon Availability in New Mexico
Virginia T. McLemore 339

Albuquerque NPDES Stormwater Program and Menaul Detention Basin Reconstruction
Loren Meinz 361

The Clean Water Act
Jim Piatt 363

San Juan-Chama Project Water Deliveries Garry M. Rowe and Karl A. Martin	367
Health Effects of Arsenic Ingestion from Drinking Water Amanda Saddler	373
Regional Planning: Integrating Individual Plans Tracy Seidman Hephner and Palemon Martinez	377
Sorting Out Ownership of the Middle Rio Grande: An Analysis of the Middle Rio Grande Conservancy District Timothy M. Sheehan	381
Rio Grande Groundwater: Fixed Resource vs. A Growing Population - A Hydrogeologist's View or Managing Water to Escape the Bungee Effect Frank B. Titus	389
Water Quality of Stormwater Inflows to the Rio Grande Jack Veenhuis	397
FRIDAY AFTERNOON PLENARY SESSION	
Pueblo Water Quality and Quantity Issues Panel Blane M. Sanchez, James S. Hena, Everett F. Chavez, Bill White and John Cawley	399
Rio Grande Task Force Conclusions Martha Franks	405
Water Conservation Programs Panel Alice Darilek, Jean Witherspoon, Donald L. Hutchinson	411
Information Needs Panel: What Types of New Water Information Do We Need? Tom W. Davis, Peter Kraai and John L. Wilson	419
Closing Session: Finding Consensus John Hernandez and Al Utton	429
WATER CONFERENCE ADVISORY COMMITTEE	433
ALPHABETICAL LIST OF SPEAKERS	435
LIST OF PARTICIPANTS	437
